

Furnace structure	3-zone heating and control		
Working temperature	200°C~1100°C		
Uniform temperature zone	80mm		
Inside dimension (width x depth x height)	70x80x180mm		
Outside dimension (width x depth x height)	300x170x235mm		
Heating element	Φ1mm of Nickel Chrome Wire		
Power supply	3-phase, 380V±10%, 1.5kW		
Insulation material	Nano insulation panel + polycrystalline Mullite		
Accuracy (°C)	Temperature	Fluctuation	Gradient
	200~600	±2	2
	600~900	±3	3
	900~1100	±4	4
